

NOTE:

Back of the Box Image has a wall open.
Because it's clear that the main bastion is open aswell,
i closed the small tower off to represent an external
watchtower, outside of the main castle that the Bastion
should be a part of.

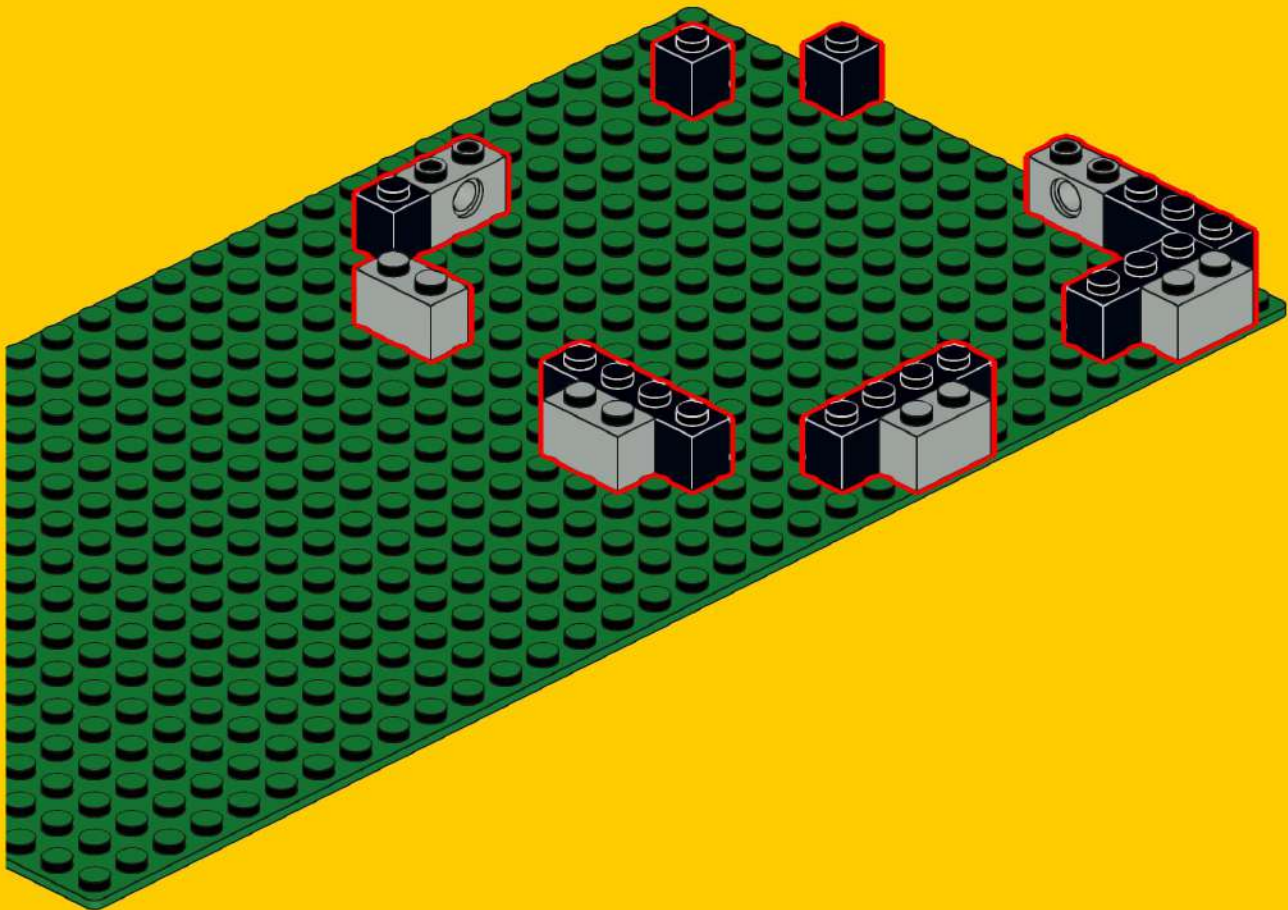

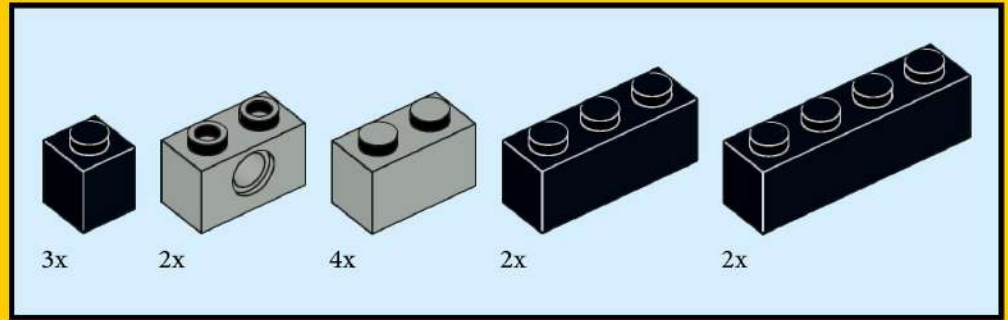

If you want it open, it will be really easy to adapt it.

NOTE:

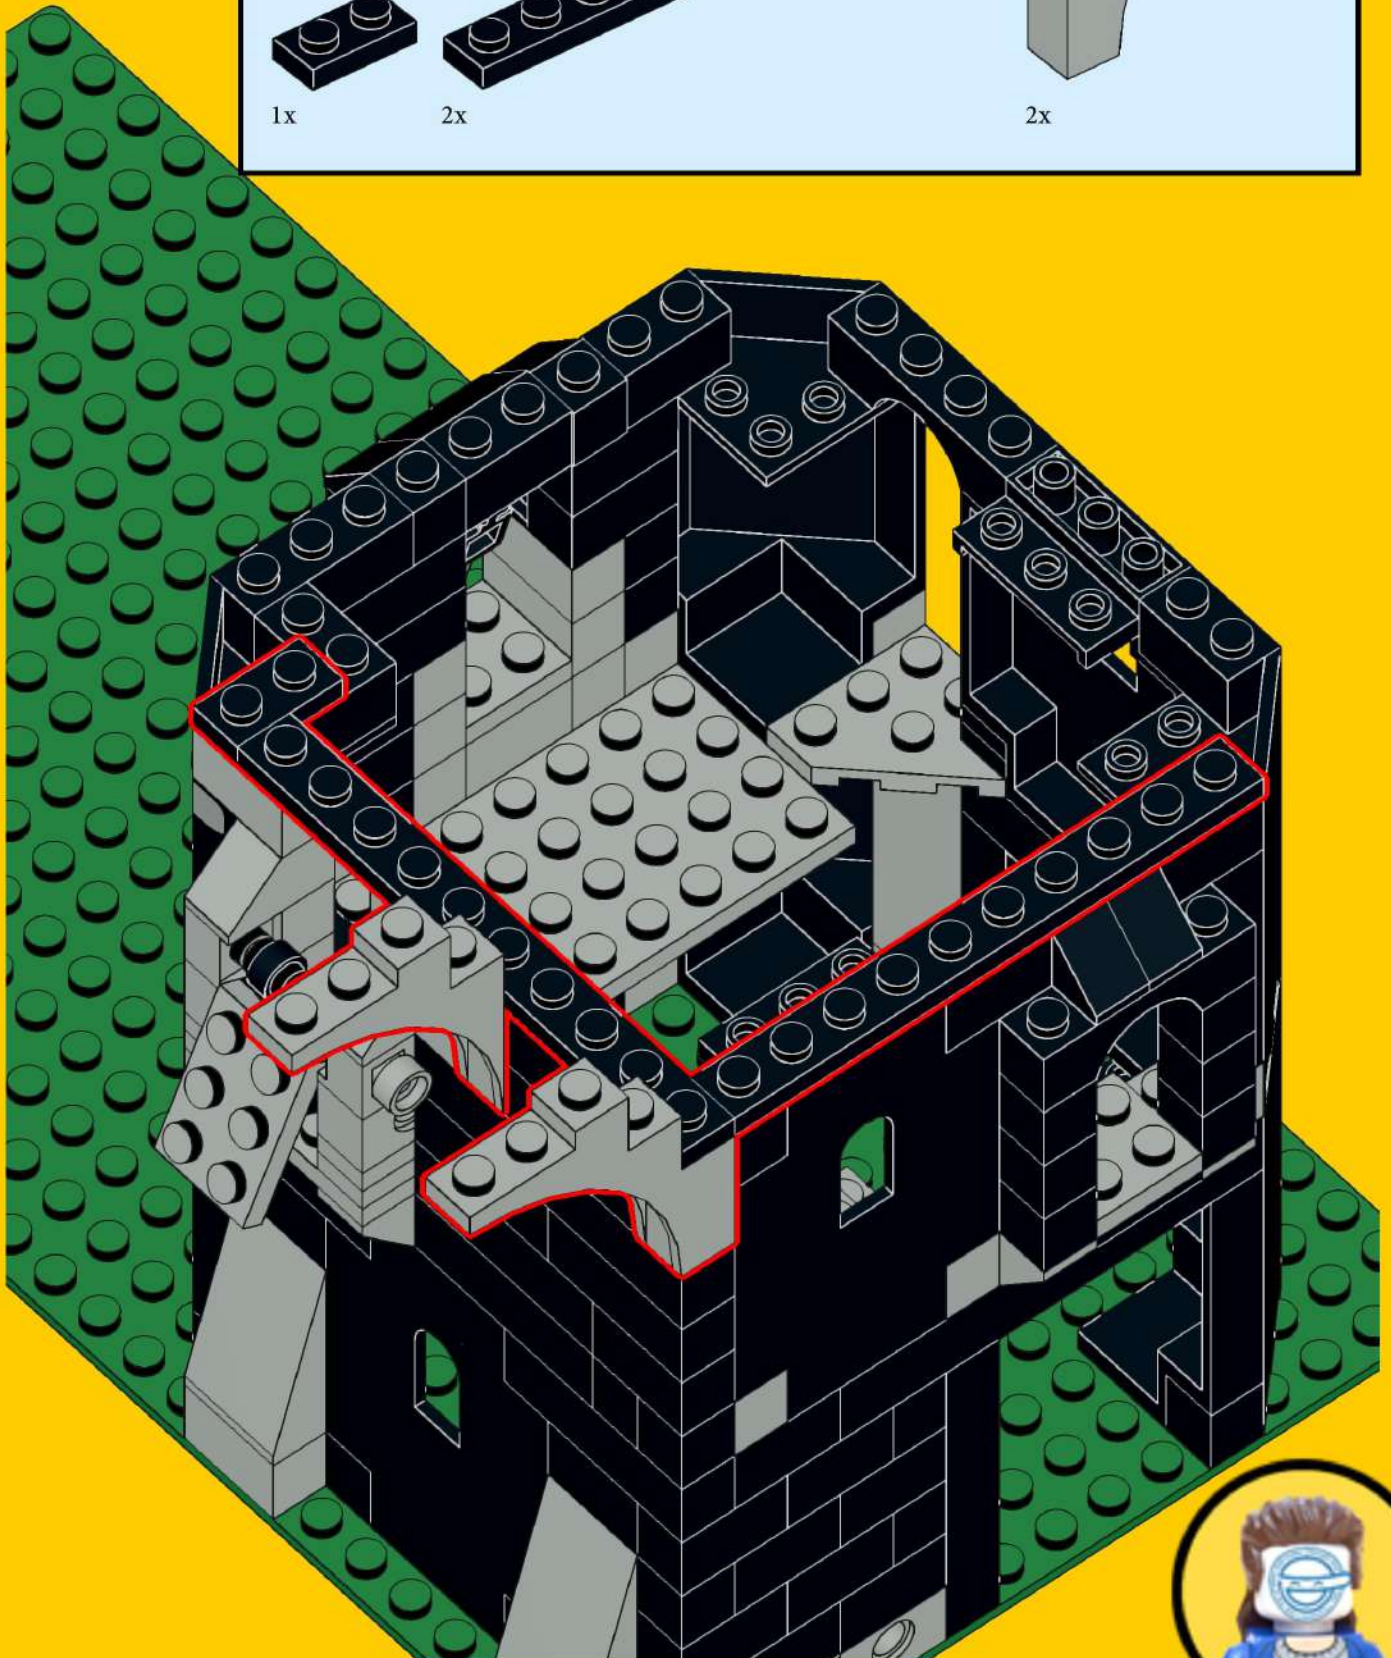

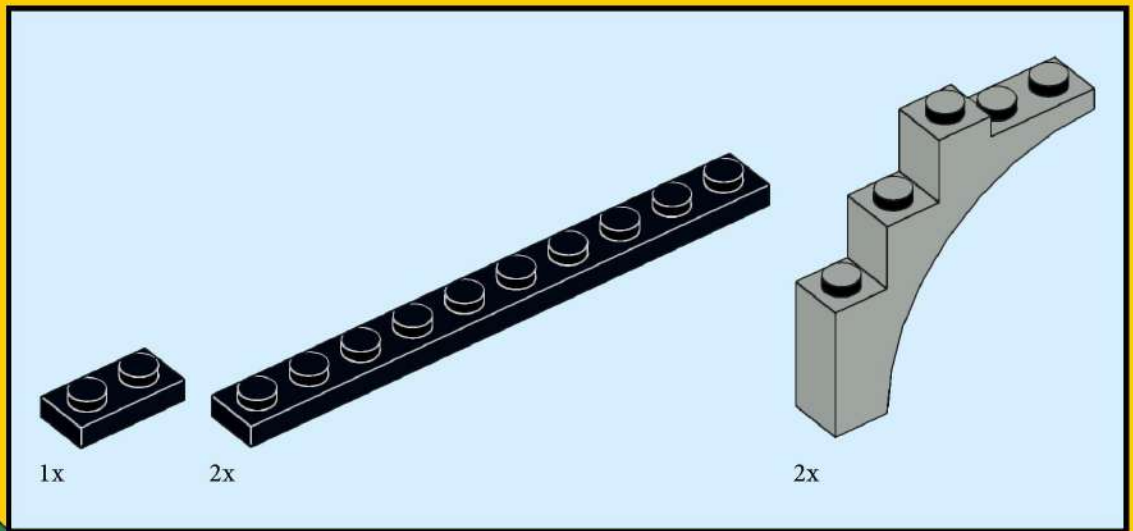

This "Window" is in preparation of a future instruction set to join al the 6085 variants together in one big castle.
