Diagram illustrating the assembly of the base structure. A 1x4 white plate is being attached to the top of the 1x4 white brick. The plate is shown in a perspective view, with its top surface featuring a 4x4 grid of studs. The brick is shown in a perspective view, with its top surface featuring a 4x4 grid of studs. The plate is being attached to the brick by aligning the studs on the plate with the studs on the brick.

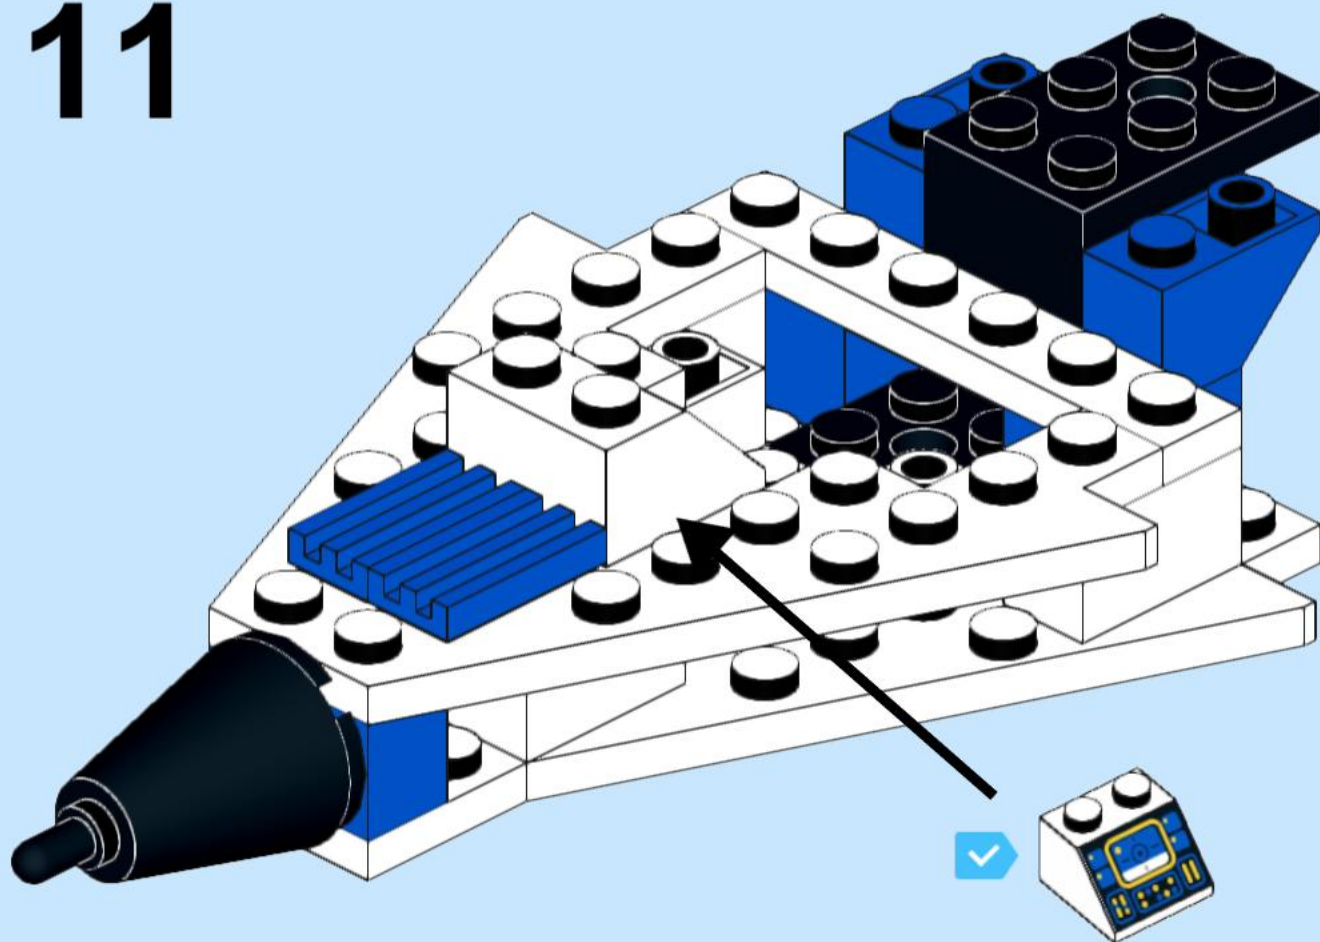

8

This diagram shows the assembly of the structure from the previous step. A large black 3x4x4 brick is being placed on top of the existing white and blue base. The black brick is positioned such that its front face is flush with the front of the white 3x4x4 brick. The blue 1x4x4 brick remains in its original position, and the white 1x4x4 brick is still attached to its side. The black brick's top surface has eight circular studs visible, arranged in two rows of four. The white 3x4x4 brick's top surface has eight circular studs visible, arranged in two rows of four. The blue 1x4x4 brick's top surface has four circular studs visible, arranged in a 2x2 grid. The white 1x4x4 brick's top surface has four circular studs visible, arranged in a 2x2 grid. The entire structure is built on a white base plate with a grid of circular studs.

This diagram shows the assembly of the top of the engine. A black 1x4 brick with a 1x4 axle hole is being placed on top of a blue 1x4 brick. A yellow arrow points to the right, indicating the direction of the axle. The black brick is being placed on top of the blue brick, which is already attached to the white base. The black brick has a 1x4 axle hole, and the blue brick has a 1x4 axle hole. The black brick is being placed on top of the blue brick, which is already attached to the white base. The black brick has a 1x4 axle hole, and the blue brick has a 1x4 axle hole.

This diagram shows the completed assembly for step 51. The motor mechanism is fully constructed, featuring a black motor connected to a series of blue and white Technic bricks. Yellow lightning bolt symbols are placed on the assembly to indicate the electrical wiring connections. The entire structure is built on a white Technic base plate.
